

In-Patient & ICU Visitor Requirements

Visiting Hours: M-F 11AM-6PM SAT/SUN 9AM-5PM

These hours are strictly enforced unless a compassionate exception applies.

Dear ZSFG Visitors,

We are happy to support your visit with your loved one today. To keep you, our patients and caregivers safe, we require all visitors to:

- ✓ Avoid visiting if you are feeling sick, have a fever, have been in close contact with a person who is COVID-19 positive or have recently had a positive COVID-19 test.
- ✓ Answer all the questions about your health and contact with people who are COVID-19 positive.
- ✓ Have your temperature taken.
- ✓ Limit visit to three-hours.
- ✓ Replace your personal face covering with the mask we provide at the entrance. Masks are to be worn at all times covering your nose and mouth.
- ✓ Remove gloves.
- ✓ Wear a visitor pass that others can see.
- ✓ Practice social distancing in all elevators.
- ✓ Check-in at the nurse's station so you can be taken to the correct room.
- ✓ Stay in the patient's room until you plan to leave. Visitors cannot linger in the hallways, lobbies or waiting rooms. Once you leave the unit, the visit is over. You are allowed to use public bathrooms.
- ✓ Always stay at least 6 feet away from the patient.
- ✓ Wash your hands with soap and water (or use hand sanitizer) before and after entering the patient's room.
- ✓ Wear additional protective equipment (i.e. gowns, gloves, face shields, etc.) if you are visiting a patient with an infectious disease. You will be instructed by the nursing staff.

We must practice social and physical distancing in all areas of our hospital. Because of this, lobbies and waiting areas closed and you may be redirected or asked to leave an area if the distancing is not possible due to space issues. The care team or lobby staff can help answer any questions you have.

**By accepting this handout, you are agreeing to the visitor requirements.
Visitors who do not follow these requirements will be asked to leave.**
